Athletic Eligibility

Students must remain eligible in accordance with the OHSASA bylaws, which require students to be passing five, one credit high school courses, or the equivalent per grading period, with the high school and college courses combined. Most CCP courses taken during a semester will equal one Carnegie unit (one high school credit), allowing students the opportunity to earn more than the required five for athletic eligibility. It is the student's responsibility to arrange a method for obtaining a progress report as needed with the college faculty in order to determine eligibility.

Ohio High School Athletic Association (OHSAA)

****Summer courses do not count toward eligibility calculations.***
